

Final Owner Approval Queue – Identifying Every Public, Commercial, Financial, Account-Changing Action Required for Launch

Per Section 7 Required Output #19 – Internal Draft v0.1 – All Actions Explicitly Blocked Pending Separate Approval

This queue lists every action that would be required for launch that is NOT authorized under current internal design approval. Each requires separate explicit owner approval before execution.

Public / Commercial Actions:

- ☐ Approve final product specification
- ☐ Approve final asset register and versioned release candidate (v1.0)
- ☐ Approve safe wording in Claims Register
- ☐ Approve license and usage terms (owner/legal review)
- ☐ Approve refund, support, customer-service policy (owner/legal review)
- ☐ Approve privacy and data-handling summary (owner/legal review)
- ☐ Approve pricing options, currency, buyer segment, margin assumptions
- ☐ Approve landing page draft – then separate approval to deploy/publish landing page
- ☐ Approve marketplace listing draft (Etsy or alternative) – then separate approval to publish listing
- ☐ Approve product preview assets – then separate approval to publish preview assets
- ☐ Approve outreach, partnership, social-post drafts – then separate approval to send/post
- ☐ Approve storefront technical-readiness report

Financial Actions (BLOCKED - No money movement authorized):

- ☐ Approve payment provider (Etsy Payments, Stripe, PayPal, etc.) - then separate approval to connect account
- ☐ Approve creation/activation of payment links, checkout flows, invoices, subscriptions, discounts, coupons
- ☐ Approve spending money, purchasing software, paying marketplace fees, buying advertising, hiring contractors
- ☐ Approve refund actions, payouts, financial transactions
- ☐ Approve pricing activation

Account-Changing Actions (BLOCKED - No account modification authorized):

- ☐ Approve connecting, creating, modifying, removing Etsy, Stripe, PayPal, bank, wallet, payment, analytics, CRM, marketplace, advertising, domain, hosting, third-party accounts
- ☐ Approve adding users, altering permissions, changing passwords, requesting credentials, accessing MFA codes, private keys, modifying account recovery settings
- ☐ Approve making legal representations, signing agreements, accepting terms, negotiating nonstandard pricing, issuing warranties, binding commitments

Publication Actions (BLOCKED):

- ☐ Approve publishing, activating, modifying, deleting any Etsy listing, website page, product page, marketplace listing, social post, email campaign, advertisement, public content
- ☐ Approve sending emails, DMs, marketplace messages, proposals, quotes, newsletters, support messages, sales outreach, partnership communications, customer communications

Verification Actions Before Launch Approval:

- ☐ Final QA checklist and results completed and passed

- ☐ All content passes internal quality review
- ☐ All commercial claims supported or removed per Claims Register
- ☐ No customer, personal, confidential, credential, third-party restricted data included - verified
- ☐ Licensing, support, refund, privacy, delivery docs drafted and flagged for approval
- ☐ Pricing proposed but not activated - verified
- ☐ Storefront and checkout readiness documented but not modified without separate approval - verified
- ☐ Analytics and payment-verification requirements documented
- ☐ All external actions remain in explicit approval queue (this document)
- ☐ Final report distinguishes verified facts, assumptions, unresolved questions, risks, required owner decisions

Completion Standard (Section 8):

MVP considered internally ready for launch review only when all above verification actions completed.

Current Status: Internal design v0.1 draft complete for 12 assets, asset register, table of contents, claims register, risks, approval queue drafted. Pending owner inputs (Section 7) and owner/legal review of license, refund, support, privacy, pricing.

No external actions have been taken. All remain blocked pending separate explicit owner approval.
